

DE-COMP COMPOSITES, INC.

D3000-4

BREATHER/BLEEDER

D3000-4 is a stretchable non-woven polyester felt with an excellent drape which enables it to conform closely to the contours of the part. The material's multidirectional stretch, combined with a low density, light weight construction, makes D3000-4 a highly efficient breather.

D3000-4 contains no binders that will cause restricted air flow or that will cause adhesion to the part or other components.

PROPERTIES

Maximum Use Temperature	400°F/204°C
Weight (oz/yd ²)	~4.4
Standard Roll Size	60" x 100 Yd
Color	White

NOTE: Slitting is available upon request.
