

DE-COMP COMPOSITES, INC.

SURFACE CLEANER

SURFACE CLEANER is a combination of solvents specially blended to aid in the preparation of new and used molds/tools prior to treatment with **MOLD CONDITIONERS AND RELEASE AGENTS**. It readily removes waxes and other surface contaminants without harming or dulling the working surfaces of the mold. **SURFACE CLEANER** will also clean brushes and spray equipment used to apply various release products and elastomeric materials. If a **NON-HAZARDOUS** cleaner is required, **WATERCLEAN** is available for this purpose.

SURFACE CLEANER BENEFITS

- Can be used to remove all release agents
- Ease of Application and Use
- Fast drying
- No residue

TYPICAL PROPERTIES

Appearance & Odor:	Clear, thin liquid with characteristic solvent odor
Carrier:	Blend of oxygenated and aromatic hydrocarbons
Flash Point [C.C]:	~ 36°F (2°C)
Coverage:	Approx. 1200 sq. ft/gal
Wt/Gallon:	7.04 lbs/Gallon
Cure Mechanism:	None

HOW TO USE

1. Apply **SURFACE CLEANER** liberally to the surface of the mold with a clean cloth
2. As the waxes and other contaminants begin to dissolve and loosen, remove them from the surface while still wet using a separate clean cloth. Repeat this process until the mold is clean.
3. The cleaning cloths should be regularly replaced as they become saturated with wax, etc.
4. When all the contaminants have been removed, wipe the entire surface with a clean cloth soaked with **SURFACE CLEANER**, and gently buff until dry.

NOTE:

- As with all solvents, appropriate protective gear should be used when handling this product. Adequate ventilation should be employed, and solvent resistant gloves and respirators worn.
- This product is flammable, and its use in the presence of heat, sparks, or open flames should be strictly avoided. For industrial use only; keep out of reach of children.
- For excellent cleaning power without the use of solvents, use **WATERCLEAN** product in place of **SURFACE CLEANER**.

DE-COMP COMPOSITES, INC.

SURFACE CLEANER (cont..)

USES

Safe & effective cleaning for molds, tools, equipment and finished parts, will not remove uncured resin or gel coat.

STORAGE & SHELF LIFE

Store in a dry area in the original closed container. DO NOT store at elevated or freezing temperatures. Shelf life – 12 months providing original container remains unopened.

SAFETY DATA

Material safety data sheets for all products are available and should be consulted prior to use of product.

SHIPPING DATA

DOT SHIPPING NAME:	Compound, cleaning liquid (2-Butanone)
DOT HAZARD CLASSIFICATION:	FLAMMABLE LIQUID
DOT I.D. NUMBER:	NA 1993 Domestic US or UN 1993 (International Shipments Only)

PACKAGING

SURFACE CLEANER is available in the following sizes:

- 1-U.S. gallon can**
- 5-U.S. gallon pail**
- 55-U.S. gallon pail**
